Dear Jimmy:

I was very disappointed to hear/see you take part in such a defamatory broadcast with your brother John Alite on Monday, that being the February 5th, 2018 appearance the two of you made on *Me Myself and You* (Episode 13) on WildfireRadio.com. Video of which was posted on Facebook by its host Raymond “Ray” Scipione, which was shared by your brother on Facebook.

As you know, I not only am a writer-producer on the upcoming docu-series Witsec Mafia with John A. Gotti, which your brother is being profiled in, as a journalist I also built JohnAliteFacts.com. A website documenting, literally, many dozens of lies your brother has told.

As research was conducted for JohnAliteFacts.com and Witsec Mafia, you provided dozens of hours of interviews. These interviews took place with both myself and John A. Gotti, and it should be noted that you first reached out for Mr. Gotti to help counter your brother’s lies in late 2014 after not speaking to Mr. Gotti in approximately 23 years, not the other way around.

In our conversations, not only did you record a podcast with myself, which I never aired – to protect you from possible legal ramifications, due to an admission you made – but I also notified you that I recorded our phone calls.

Why? Because as a journalist, *it is my duty*.

To make sure I do not misquote who I am interviewing. To protect both my sources, and the people I work with. And to also protect myself so if someone claims I misquoted them, I can provide the tape backing up what I reported. And so if someone misquotes me, I can provide the tape proving that the person I spoke to is not being truthful.

However, in this case, both John A. Gotti and myself found it ever more prudent to record our conversations with you to protect ourselves since you are the brother of a pathological liar who you acknowledged, knowingly told lies about John A. Gotti on the witness stand, trying to get him the death penalty for crimes he did not commit. Especially since you acknowledged that you were speaking to your brother on the phone at night after he testified and were aware of the lies he was telling on the witness stand... yet, you didn’t come forward to testify against them to clear individuals wrongly accused of numerous crimes including murders.

As you know, New York is a one party state, and it is my legal right to publish the recordings of our conversations. Thus far, neither I nor John A. Gotti have done so publicly.

But, after hearing you and your brother spew mistruth after mistruth on the radio, we feel we may have no choice. Especially since on the radio Monday, your brother spoke of Mr. Gotti

going after his, your brother's children, saying that Mr. Gotti *"talks about my children on a regular basis... with this guy Chrissy."*

Jimmy, in case you forget, we only began communicating directly after exchanging emails on March 21st, 2016. This was after your brother lied on Facebook that Mr. Gotti and I threatened and were *"trying to intimidate"* his daughter. After which you acknowledged that your brother lied about it. Yet here you and your brother are on a radio show implying that your words were taken out of context when they were quoted by us in our reports... when, the truth is the majority of the information you provided over dozens of hours of interviews was never published, specifically to protect John Alite's children, your niece and nephews, as well as the rest of your extended family. Especially since you described on multiple occasions how your brother physically and mentally abused his children and other members of your family. Jimmy, you even provided us with a recording of numerous members of your family discussing your brother threatening to kill a member of your family, making it all the more shocking that you have now accused us of doctoring your words and sat at a table with your brother as he accused us of going after his children.

Especially since on the broadcast Monday, John Alite said the *"Gottis do say that I'm friends with a pedophile... and the guy's not a pedophile."*

When the truth is, after I confronted your brother with questions outside Brooklyn Federal Court on October 24th, where he's being sued for defamation, and asked him, on video: *"Why did a pedophile write the first draft of your book?"*

He acknowledged that a pedophile did in fact write it.

Jimmy, please post a public apology video listing and correcting every mistruth you and your brother told on the February 5th broadcast and please have that broadcast removed from Facebook, WildfireRadio.com, and wherever else it is posted. If you don't, we will be forced to defend our reputations, research and projects against these lies and may start releasing excerpts of your statements and other recordings which you made on your own and provided to us.

But remember, we never wanted to do this. Even though your brother stated on Facebook last year that you went *undercover* and recorded conversations with us, we never stooped to his level or released our own recordings (which again, were made to protect ourselves). You said you came forward as a source to do the right thing and help expose your brother's lies and egregious behavior, and in 2016 even sued him for theft and defamation. But should you choose to publicly engage in defamatory acts of your own, acting like we were out to con you when we only tried to help you, again: we will have no choice but to defend the integrity of our projects, research, and reputations.

I was appalled when your brother wrote on Facebook in October that you were offered *"up to 15 grand"* by Mr. Gotti to lie, and am even more appalled that he stated on the radio Monday that you were offered *"up to 15,000"* to lie, because, it was you who came to us seeking help to get you and your *"story"* out there. But, we never paid you money for an interview during our investigations. Although numerous times you requested compensation, those requests were denied numerous times and memorialized each time. We only said that you would be compensated for your time if you appeared on camera in a documentary. And we especially never offered to pay you money to take a polygraph or sign an affidavit. It was you who offered

to take one and sign one, on your own when you first came forward to appear credible, and did take one and sign one.

We also never offered to pay you to sign an affidavit to get your brother sent back to prison as you have implied.

Instead, you offered to sign another affidavit after stating that your brother was planning to hurt and possibly kill me when he got off supervised release, as well as you and or others. You even said that your mother called your brother's FBI handler, Agent Ted Otto in a 10/9/2016 Facebook message, and that Agent Otto spoke to your brother afterwards.

However, in the end, you didn't sign the affidavit that your brother was making threats, an affidavit that you initiated, and the main reason you provided for why you didn't was because your mother and father would stop assisting you financially and you would be homeless, which was also memorialized on our end multiple times, as you discussed it multiple times. And as you know, you were told multiple times that we could not provide a home for you in exchange for you signing an affidavit. You would have lost credibility.

Jimmy, when you first came forward, it was you who stated repeatedly that you wanted to appear credible. So, please do the right thing. Make an apology video and act credibly.

Best Regards,

Chris Kasparoza
